CONGRESS.

IN SENATE—Friday, December 5

Mr Wells, from Delaware, appeared and took his seat.

The Senate went into consideration of the motion to amend the rules of the Senate, by ordering the appointment, at each session of standing committees on the regular subjects of legislation, instead of providing select committees for every occasion requiring the reference of a subject.

A motion made by Mr. Barbour, to add to the number a standing committee on the subject of Roads and Canals, gave rise to some debate.

This motion was opposed by Messrs. Mason of N. H. and Daggett, on the ground that except, the Cumberland road the U. States possesses neither roads nor canals, on which to legislate; that it was not a regular and permanent subject for the consideration of Congress; that it had not yet even been decided that the United States had a constitutional jurisdiction over roads and canals, and that under this doubt, the extension of their constitutional powers on the subject had been suggested, &c.

Mr. Barbour replied that his motion proceeded from his impressions of the importance of roads and canals to the welfare and prosperity of the republic; that it was, moreover, a subject repeatedly recommended to their consideration by the President of the U. States, that though, except in the single road mentioned, the United States possessed neither roads nor canals, on which to legislate, his object was to provide for their creation, and with that view, he wished the subject to be referred to a permanent committee, to deliberate and regularly report thereon: that there was a universal sentiment in the country in favor of these great objects of domestic improvement: and that, whatever doubts might exist as to the constitutional power of Congress to legislate on the subject, the states would never urge that objection, but would always cordially co-operate in objects so promotive to their advantage and convenience, etc. He was not however, anxious to press the subject at this time, in the way he had proposed in opposition to the wishes of gentlemen, and would therefore withdraw his motion

The whole subject was postponed to Monday.

STATE OF INDIANA.

Mr. Morrow, from the select committee, to whom was referred the resolution for admitting the state of Indiana into the Union, reported the same in an amended shape, which report was twice read, & by general consent ordered to be engrossed for a third reading this day, was accordingly subsequently read the third time, and passed, unanimously, as follows:

Whereas, in pursuance of an act of the Congress of the United States, passed on the 19th day of April, 1816, entitled "An act to enable the people of the Indiana territory to form a state government, & for the admission of that state into the Union, the people of the said territory did, on the 29th day of June, in the present year, by convention called for that purpose, form for themselves a constitution and state government, which constitution and state government so formed, is republican, and in conformity to the principles of the articles of compact between the original states and the people and states in the territory north-west of the river Ohio, passed on the 13th day of July, 1787: Therefore.

Be it resolved, by the Senate and House of Representatives of the U. S of America, in Congress assembled, That the state of Indiana shall be one, and is hereby declared to be one of the United States of America, and admitted into the Union on an equal footing with the original states in all respects whatever

The rev. Mr. Glendy was elected, on the part of the Senate, Chaplain for the present session; and then

The senate adjourned to Monday.

HOUSE OF REPRESENTATIVES
Friday, December 6, 1816.

Mr. Johnson of Virginia appeared yesterday, and, to-day, a Mr. Ross, from Pennsylvania, Mr. Cooper from Delaware, and Mr. Mills from Massachusetts.

On motion of Mr. Tucker of Virginia, it was

Resolved, That the committee for the District of Columbia be instructed to inquire into the expediency of prohibiting by law the establishment of unchartered Banking companies, and the circulation of the notes of such companies within the District.

Mr. Harrison, of Ohio moved the adoption of the following resolution:

Resolved, That the military committee be instructed to enquire into the expediency of providing by law for the relief of such of the officers and soldiers: who, having faithfully served in the armies of the United States, are now in distressed circumstances, and who, not having received wounds or disabilities, whilst in actual service, are excluded from the benefit of the pension laws, and that the said committee report by bill or otherwise.

Mr. H. said it had been his intention to offer, with this resolution, some observations upon the matter to the House, but, understanding that this course was not considered wholly proper on offering a motion to the house, he should reserve his remarks for another stage of the business. He did so with the less reluctance, since any remarks he should have made would have been with a view to enlist the feelings of the house, and he felt on reflection convinced they must be wholly unnecesary on this occasion, and that the heart of every American would beat in unison with the subject he had in view. He had made the resolution as broad as possible, that it might afford to the committee a choice of the various modes of accomplishing the object committed to them.

The motion of Mr. H. as originally offered, embraced a positive instruction to the committee to report the mode in which the object could be best accomplished; but was so modified by Mr. H. on the suggestion of Mr. Taylor of N. York as above, to instruct the committee to inquire into the expediency of legislating on the subject. In support of this modification,

Mr. Taylor remarked, that after the provision made at the last session, it was asking rather too much of Congress to pass a resolution, the terms of which assumed the fact, that further provision was necessary. A change of opinion might have taken place in the house on the subject since the last session, but he thought it improper to take that for granted which yet remained to be ascertained.

The motion of Mr. Harrison, as it stands above, was agreed to without a division.

On motion of Mr. Johnson of Kentucky,

Resolved, That the committee on military affairs be instructed to inquire into the expediency of organizing a corps of Invalids, and of establishing additional military academies.

The following Message was received from the President of the United States:

To the Senate and House of Representatives of the United States.

The 9th section of the act passed at the last session of congress, "to authorise the payment for property lost, captured or destroyed by the enemy, while in the military service of the United states and for other purposes," having received a construction giving to it a scope of great and uncertain extent, I thought it proper that proceedings relative to claims under that part of the act should be suspended, until congress should have an opportunity of defining more precisely the cases contemplated by them. With that view, I now recommend the subject to their consideration. They will have an opportunity at the same time, of considering how far other provisions of the act may be rendered more clear and precise in their import.

JAMES MADISON.

The Message was referred to the committee on claims.

Mr. Forsyth submitted the three following resolutions:

1. Resolved, That the President of the United States be, and he is hereby requested to lay before this house the proceedings of the commissioner appointed under the act of the last session, entitled "An act to authorize the payment for property lost, captured and destroyed, whilst in the service of the U. S. and for other purposes."

2. Resolved, That the President of the United States be and he is hereby requested to order the further execution of the said act to be suspended until the subject shall be disposed of by this house.

3. Resolved. That the President be and he is hereby requested, to inform this House whether the judgements made by the commissioner under the said act have been paid by the treasury and if they have been paid, by what authority & out of what fund.

On these resolutions a short discussion arose, a sketch of which shall be given in our next.

The debate resulted in the adoption of the first and third resolution, the second being laid on the table, on motion of Mr Yancey.

Mr. Williams of N. C. then called up the motion he had yesterday made on the same subject, viz. to appoint a committee to enquire into the decisions of Richard Bland Lee, Esq. with power to send for persons and papers. This motion also was agreed to without a division

The resolution from the Senate in form of a joint resolution, declaring the admission of the State of Indiana into the Union, was received, twice read and referred to a committee of the whole house on the state of the Union.

Some conversation took place on the propriety of taking it up to day, which was advocated by Mr. Harrison and Mr. Lowndes, who considered the resolve as a matter of form merely, and opposed by Mr. Hardin and Mr. Taylor of N. Y. who regarded it in a different light, and argued that so solemn an act as pronouncing on the charter and republican principles of a state constitution, ought to be more deliberately considered than was proposed. The motion for to day did not prevail. After ordering the constitution of the new state to be printed—

The house adjourned.

VIRGINIA LEGISLATURE.

A Decision at last in the Committee.

Yesterday, the House of Delegates again resolved themselves in to a committee of the Whole, Mr. Baker in the chair, on the suspension bill.

Mr. Hay occupied the floor nearly 3 hours, in favor of his substitute, which goes to fix no particular time for the resumption of specie payment, but attempts to stimulate them to adopt an early day by suspending all dividends among the stockholders.

When Mr. Hay closed, the question was then taken upon the adoption of the proposed substitute, and lost by a considerable majority.

Mr. Mercer (of Loudoun) then proposed a substitute to the original bill, that the banks be compelled to pay specie on the 20th February, or on the day which Congress should select in lieu of it for the specie payments of the public dues—Lost by a considerable majority,

Mr. Smyth then moved to strike out the provison to the bill, which goes to annex as a condition to the bill that the banks should pay by the 10th of January all notes under one dollar—This motion was lost, ayes 83 noes 9

Mr. Doddridge then moved to insert the 1st instead the 10th day of July, as the day on which the banks are to resume their specie payments generally, which motion was carried by a large majority,

Mr. Alexander moved to add after the word "resumed" in the proviso, the words 'and continued"—thus compelling them not only to resume the payments of small notes on the 10th January, but to continue them—Carried without opposition.

The original Proviso is in the following words:

"Provided, That no bank within the Commonwealth shall avail itself of the benefit of this Act, which shall not on or before the 10th day of January next, have resumed the payment in specie of all notes under five dollars.

Mr. Lane moved to strike out "five" in the last line. This motion prevailed after some opposition, Ayes 105, Noes 80.

Mr. Lane then moved to fill the blank with the word "one"

Mr. Scott moved to fill it with "two" —This motion was lost without a division.

The question was then put on Mr. Lane's motion, carried.

Mr Lane then moved to add in the same line, after the word "notes," the words "or tickets" which was carried without a division.

On Mr. Baker's motion, the following Commencing Clause was added; "This Act shall be in force from the passing thereof"

On Mr. Tazewell's motion, the Committee then rose, and Mr. Baker reported the bill and its amendments to the house.

On Mr. Tazewell's motion, the bill & amendments were laid on the table—And the house adjourned.

The following is the shape which the bill now assumes, after incorporating all the amendment which have been adopted.

A BILL

To suspend for a further time the act entitled, "An Act to provide more effectually for the payment of specie by the several banks of the Commonwealth

1. Be it enacted by the general Assembly, That the act entitled, "An act, to provide more effectually for the payment of specie by the general banks of this commonwealth," shall be further suspended until the first day of July next, and no longer.

2. Provided, That no bank within this Commonwealth shall avail itself of the benefit of this act, which shall not, on or before the 10th day of January next, have resumed, and continued the payment in specie of all notes or tickets under one dollar.

3. This act shall be in force from the passing thereof.

We are disposed to think, that the bill will pass the house in a shape very similar to the above.

Friday, December 6.

On Mr. Maury's motion, the order of the day was put off till tomorrow.

On Mr. Atkinson's motion, the house came to a resolution to elect by joint ballot on the 9th instant, a member of the Executive Council, in the room of John Tyler, Esq. resigned.

The Suspension Bill, as amended by the committee of the whole, was then taken up. All the amendments were concurred in, without any opposition, except the one which goes to reduce the notes and tickets which the bank is to take up in specie on the 10th January below One Dollar—Mr. Graves moved to disagree to this amendment with a view of substituting five. After a short discussion, in which the motion was supported by Messrs. Graves, Chamberlayne, Austin, Marshal, Tucker, Scott and Blackburn, and opposed by Messrs. Mercer, of L. Smith, Robinson, of R and Hay, the amendment of the committee was concurred in—Ayes 104 Noes 77

On motion of Mr. Chamberlayne the words "issued by virtue of its authority" were subjoined to the Proviso. And on motion of Mr Taylor (Ch.) the words in the proviso "have resumed and continued the payment o" were stricken out and "have commenced paying and will continue to pay" inserted in their place

Mr. Mercer [of L.] then offered a substitute, which was yesterday rejected in committee, which goes to suspend act till the 20th of February, or to such later day as Congress may adopt in lieu of this one; provided also, that the banks shall pay by the 10th day of January all the current coin of the U. S. all its notes or tickets, for any sum less than one dollar. Mr. M. urged, as an argument in favor of the measure, a passage in the late Message of the President, from which he inferred a distinct intimation that the general government would be severe in the resolution which they had adopted, to call for the public dues in specie, &c. on the 20th of February. He contended that no state pride ought to be excited, as he was sorry to see had been by an attempt to produce a concurrence between our own measures and those of Congress—Congress having exclusive the power under the constitution, to regulate our currency. He asked if it were not better to co operate with Congress upon whose measures we might calculate with some degree of assurance, rather than with the banks of the middle states whose interest had induced them to secede the 10th July, and whose interest might induce them to change it? Besides a new fact had come out; that they were about to send Mr. Sergeant, one of their board to England, for five millions of specie; that he would get them on good terms as Spanish Dollars were selling in London at 7½ per cent below par, and after all the expences being deducted would leave a clear profit of 2 per cent—so that the U. S. Bank might lend their own stockholders the specie to pay up the last instalment, instead of their coming into our markets to obtain the specie for our banks, if they should open on the 20th of February. Mr. M. said, that this House continued to sit only till the 15th January, they would be able to know what step Congress would take—Congress most terminate on the 4th March the public dues must be collected and timely notice would have to be given to the collectors of the revenue, scattered in Indiana, the Missouri, &c. &c. time before the 20th of February, whether they meant to adhere to their resolution. Mr. M. also contended, that the banks would be able to pay specie by the 20th of February, as all they would have to do would be to convert their public stock, foreign notes, &c. into specie.

Mr. Smyth was not satisfied with the idea of passing an act depending on a solution of Congress—that it was our business to administer relief to our own banks; that congress was powerless for this purpose; for, if they should add to their resolution, how should we state Congress would thus say, our ports should be open, while those of the other banks were shut. He stated that gentlemen from Loudoun wished the banks to bring 1,500,000 dollars of specie, with their stock, &c. at a sacrifice of 80,000 only; but as the instalment in the National Bank would require $3,000,000, there would be a greater demand for specie, its price would rise, and the cost to our banks more than $80,000.

Mr. Baker moved to amend Mr. Mercer's substitute by striking out so much as would cause it to be read, instead of the act of last winter being suspended that it should "be and the same is hereby repealed." He was opposed to the original bill and the substitute, because no particular day was named in each, the same reason, he had been last winter opposed to the law which had been adopted. We were then told that on the 1st Nov. the banks would pay, as if there was magic in that law; he had then the misfortune to find himself in a small minority, but now the tables were turned, and he found himself in a large majority on that question. He asked if there were now any particular magic in the 1st of February or the 1st of July? Could not the people of Virginia legislate for themselves without looking to Congress. He thought it enough that in legislating for Virginia he passed no law which contravened the powers of Congress. There was no more magic in the 1st of July, because we were not sure that the Northern banks would adhere to the day, he had no idea of any dependence on incorporations. He begged leave to remind the house of a trite adage, *sutor ultra crepidam*—We had best stick to our last, and confine ourselves to subjects more within our comprehension. We had best leave it to those who have the greatest interest in the matter.

Mr. Scott called for the ayes and noes on the motion of Mr. Anthony, (who moved the motion to repeal altogether was made for the first time brought before the house, and time ought to be taken for consideration,) the bill and amendments were laid upon the table—And the house adjourned.

ALEXANDRIA.

TUESDAY, DECEMBER 10.

Missouri and Illinois exhibit an interesting spectacle at this time. A stranger to witness the scene would imagine that Virginia, Kentucky, Tennessee, and the Carolinas had made an agreement to introduce us as soon as possible to the bosom of the American family. Every ferry on the river is daily occupied in passing families, carriages waggons, negroes, Carts &c—respectable people, apparently able to purchase large tracts of land. Come on, we have millions of acres to occupy, provisions are cheap, and in abundance.

St, Louis Gaz.

It is stated in the Newport Mercury that the number of votes returned for the democratic candidates, for electors in this State, was one thousand two hundred and thirty six! we learn that in a neighboring town, severely democratic, only five votes were polled, and that in many other towns, the great body of democratic freemen did not take any part in an election, which they have been told was such a proud priviledge—such an imperitive duty—as to demand their utmost vigilence and exclusive attention.

In April last, the democratic candidate for governor received three thousand two hundred and fifty nine votes. After allowing for the want of opposition on the part of the federalists, we know not how to account for the strange difference: unless even the democrats begin to suspect that what the Constitution intended should be a solemn right, an inestimable privilege—has been degraded into a contemptible farce, were the people are made to maintain the dignity and discover the activity of puppets.

When, upon motion of Mr. Morgan, an act, entitled an act to regulate the weighing and measuring of grain, salt and coal, was substituted in its place; which was read a second and third time and passed.

October 18 d

JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York,

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason to be can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to cary off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout asthmatic gout, palsy, lumbagoo, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, (the basis of other lotions) and of unparralled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent inoxication or any other destructive intemperance the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.
